Subject: In Support of Yucca Mountain Site

Part of Records Package / Supplement / Correction

Carol Hanlon:

I am writing e-mail this in support of the Yucca Mountain site as a geologic repository for spent nuclear fuel and high level radioactive waste. I have a B.S. in Nuclear Engineering and an M.S. in Environmental Engineering with over 17 years of experience in the nuclear industry. I fully endorse the comments submitted by NEI in the letter, "Comments on the Possible Site Recommendation for Yucca Mountain (66 Fed. Reg. 23,013 - May 7, 2001, 66 Fed. Reg. 43,851 - August 21, 2001 and 66 Fed. Reg. 45,845 - August 30, 2001)," dated September 25, 2001. I believe that the information analyzed and gathered to date will provide the President sufficient evidence that the Yucca Mountain site is qualified for the preparation and submission of a construction license application to the NRC. The Yucca Mountain repository is a sound approach to permanent nuclear waste disposal. I believe that the Yucca Mountain site will help to maintain nuclear energy as a viable option for the nation's diversified and environmentally friendly energy policy. If you have any question regarding my opinions, please feel free to contact me.
